

**UNITED STATES DISTRICT COURT
District of Massachusetts (EASTERN)**

Comcast of Massachusetts I, Inc.) Case No.: 1:04-cv-12472-DPW
(“Comcast”))
Plaintiff,) MEMORANDUM OF LAW IN SUPPORT
vs.) OF PLAINTIFF'S MOTION FOR
) DEFAULT JUDGMENT & ASSESSMENT
) OF DAMAGES
Linda Silva)
)
Defendant)

I. Liability

The Plaintiff filed a Complaint in this action on November, 23, 2004. The Defendant was served at the last and usual place of abode, with copies of the Complaint, Summons and other pertinent documentation on December 13, 2004. Thereafter, the Defendant failed to appear in this action and Default was entered against the Defendant in this action. Plaintiff has now moved for judgment against the Defendant.

2. Analogous Case Law

The Plaintiff has moved forward for Default pursuant to 47 U.S.C. § 553, a provision of Title 47 that prohibits the unauthorized interception of television signals from the cable television system. The telecommunications provisions of the United States Code also contain the provision, 47 U.S.C. § 605, which prohibits the unauthorized utilization of interstate radio-originated communications. Section 605 is extremely similar to 47 U.S.C. § 553.

Both provisions essentially bar the unauthorized interception of television signals. Also, the statutory damage provisions for non-commercial defendants in § 605 and § 553 are extremely similar. In fact, the Second Circuit has held that where there is an unauthorized interception of signals from a coaxial cable, and the signals intercepted

from the cable include interstate radio-originated communications, both §605 and §553 are violated. See *International Cablevision, Inc. v. Sykes* ("Sykes I"), 997 F. 2d 998, 1007 (2d Cir. 1993); *International Cablevision, Inc. v. Svkes* ("Sykes II"), 75 F.3d 123, 131 n.4 (2d Cir. 1996); but see *Charter v Burdulis* 367 F.Supp.2d 16 (D. Mass., 2005). In any event, even if § 605 might not apply for unauthorized cable television violations in the District of Massachusetts the cases decided pursuant to 47 U.S.C. § 605 are, at least, analogous or similar to §553 cases. Accordingly, the Plaintiff will make citations to § 605 cases simply as persuasive authority.

Also, in some of the cases cited in this Memorandum, the defendants were using black market non-addressable descrambling devices to covertly descramble all of the cable company's signals. These descrambling devices are often referred to as "black boxes". In the case at bar, one of the Plaintiff's legitimate converters/descramblers has been covertly modified by the Defendant or her agent to create a non-addressable descrambling device, in essence a home made black box. This descrambling device was then utilized for the unauthorized interception of the Plaintiff's signals. Therefore these "black box cases" are analogous to the claims in this Civil Action. Additionally, the Plaintiff cites to satellite television cases in this Memorandum wherein the defendants utilize satellite de-scrambling devices that are also similarly analogous to the homemade black box utilized by the Defendant in this Civil Action.

3. The Plaintiff's Case without the Default

Even without the Defendant's Default, the Plaintiff still has a strong case against the Defendant. Possession of a television descrambling device is sufficient evidence

from which a trier of fact could infer that the device was used to descramble the Plaintiffs television signals. See. *DirecTV. v. Miller*, Case no 6:03-cv-1027-Orl-19KRS (a copy of the unpublished case is attached hereto as “**Exhibit A**”). In the Miller case, the plaintiff, DIRECTV, had evidence that the defendant possessed a satellite television descrambling device called an “unlooper”. The defendant in the *Miller* case moved for Summary Judgment against DIRECTV contending that DIRECTV lacked the necessary "direct evidence" such as eyewitness testimony or videotape of some wrongdoing and the defendant denied using the “unlooper”. The Court rejected this argument stating:

A reasonable jury could conclude that the defendant illegally stole DirecTV’s programming. Based on their life experience, a jury could reasonably assume that people only buy electronic equipment such as televisions, computers, or (in the case of Defendant) satellite piracy unloopers when they plan to use such equipment. It would be a strange world, after all, if people regularly bought such equipment and then put it in the closet to collect dust. *Id* at 7

Moreover, the Defendant’s actual possession of a television descrambling device leads to the reasonable inference that the device was used to descramble. In *Community Television Systems, Inc. v. Caruso*, 134 F. Supp. 2d 455 (D. Conn. 2000), aff’d, 224 F.2d 430 (2d Cir. 2002), there was evidence that the defendants purchased and installed cable television de-scramblers that would allow them to illegally view the plaintiff’s cable television programming. *Id.* at 456. Although there was no so-called "direct" evidence that the defendants had ever actually used the devices, the court, nonetheless, found the defendants liable for using the devices. After noting that the defendants had engaged in the transactions of obtaining descrambling devices from a distributor named “Radil” the court said:

Based on the record here, the most reasonable inference is that each such transaction was engaged in with Radil so the descrambler could be used for its intended purpose, namely to receive cable services over TCI's system; there is no evidence of non-use or any other use. Thus, the court concludes that each of the named defendants used and benefited financially from the descrambler sold by Radil, commencing in 1992 *Id.* at 460.

The Second Circuit affirmed the pertinent elements of the Connecticut District Court's liability decision in the *Caruso* case. In fact, the Second Circuit stated that the purchase and installation evidence was "*at least*" enough evidence for a rebuttable presumption of use. The court said:

"In the pending case, the seller's computer records showed the names of [the defendants] and the devices were installed in their home. That evidence suffices to create *at least* a rebuttable presumption that each of them is liable." *Community Television Systems, Inc. v. Caruso*, 284 F.3d 430, at 432 (2nd Cir. 2002) (emphasis added).

Additionally, the Fifth Circuit recently found that where an individual purchased a satellite descrambling device and where that individual had the necessary satellite dish to bring signals into his home, the unauthorized interception of signals could be inferred. See *DIRECTV Inc. v. Minor* 420 F.3d 546, 2005 (5th Cir.(Tex.)).

There is also persuasive precedent for inferring the use of a tampered cable television company box where there is evidence the subscriber was in possession of such a device. See *American Cablevision of Queens v. McGinn* 817 F.Supp. 317, 320 (E.D.N.Y.1993) (A copy of the case is attached). In the *McGinn* case, a cable television company did a test that disabled homemade black boxes. McGinn was found to be in possession of homemade black boxes that were disabled through the test. The case went all the way to trial and the cable television company won. The judge does not even give much discussion to whether we should infer use the boxes from possession of the boxes.

There was evidence that McGinn's company-issued converters/descramblers had been modified in a manner extremely similar to converter/descrambler returned by the Defendant in this action.

4. Well Pled Facts Deemed Proven Upon Default

The Default already entered in this action against the Defendant is similar to a finding of liability against the Defendant. See, *Almedia v. Secretary of Health Education of Welfare*, 622 F. 2d 1044 (1st Circuit 1980). Accordingly, based upon the Default that has already entered against the Defendant, the Plaintiff has now proven the liability of the Defendant as to the matters set forth in the Plaintiff's pleadings.

Accordingly, the Plaintiff has proven certain pertinent facts, including but not limited to the facts that:

- a. The Plaintiff has the legal franchise to sell cable television services in the Defendant's area;
- b. The Plaintiff distributes its cable television services to its subscribers utilizing scrambling technology such that a subscriber will receive descrambled (clear view) signals only for those services the subscriber is authorized to receive;
- c. On or before November 27, 2001 the Defendant or some third party, covertly modified a certain decoder and thereby created an illegal, unauthorized descrambling device;
- d. From on or before November 27, 2001, the Defendant utilized an unauthorized descrambling device to receive and/or intercept the

Plaintiff's premium cable channels and pay per view events without authorization and without payment to the Plaintiff; and

- e. The Defendant's unauthorized interception of signals was done knowingly and willfully.

Based upon these facts and others set forth in the Plaintiff's pleadings, the Defendant is now liable to the Plaintiff for willful violations of Title 47 U.S.C. § 553(a). Specifically, the Defendant's actions violated §553(a)(1), which provides:

No person shall intercept or receive or assist in intercepting or receiving any communications services offered over a cable system, unless specifically authorized to do so by a cable operator or as may otherwise be specifically authorized by law.

II. Damages

1. Damage Provisions and Remedy Provisions in Title 47 U.S.C. § 553(c)

Title 47 U.S.C. §553(c) provides civil damages and remedies to an aggrieved party from Defendants who have violated the above referenced §553(a) (1). Various subsections of § 553 (c) provide:

1. The Court may grant a final injunction to prevent further violations of §553 (a)(1) pursuant to 47 U.S.C. § 553 (c)(2)(A);
2. The Court may grant recovery of full costs including awarding reasonable attorney's fees to the aggrieved party who prevails pursuant to 47 U.S.C. 553(c)(2)(C); and
3. The Court may award actual damages or the Court may, at the Plaintiff's

election, award statutory damages in a sum of not less than \$250.00 or more than \$10,000.00 as the Court considers just, pursuant 47 U.S.C. § 553(c)(3)(A)(ii).

4. The Court can increase the statutory damage award by up to \$50,000.00 if the violations of §553(a) were willful and for private financial gain pursuant to 47 U.S.C. § 553(c)(3)(B).

2. The Assessment of Statutory Damages

Although 47 U.S.C. §553(c) provides little guidance on the assessment of statutory damages, courts have used a variety of methods when assessing statutory damages including:

(a) Estimating actual damages, See *Comcast v Naranjo* 303 F. Supp. 2d 43 (D. Mass 2004) and *Charter v Burdulis* 367 F.Supp.2d 16 (D.Mass, 2005).

(b) Assessing additional damages, over and above an estimate of actual damages, pursuant to the exemplary damages provision of the statute, 47 U.S.C. § 553(c)(3)(B), based upon the willfulness and private financial gain of the defendant. See *Charter v Burdulis* 367 F.Supp.2d 16 (D.Mass, 2005) and *Cablevision v Lokshin*, 980 F. Supp. 107 (E.D.N.Y. 1997)

(c) Assessing additional damages as a form of deterrence, See *Time Warner v Domsky*, No. 96 Civ. 6851, 1997 U.S. Dist. LEXIS 13505 (S.D.N.Y. Sept. 2, 1997) (a copy of the unpublished decision is attached hereto as “**Exhibit B**”), *DIRECTV v Getchel* 2004 WL 1202717 (D. Conn. 2004) (a copy of the unpublished decision is attached

hereto as “**Exhibit C**”) and *Cablevision v Collins* 2004 WL 1490307 (S.D.N.Y. 2004) (a copy of the unpublished decision is attached hereto as “**Exhibit D**”).

(d) Assessing statutory damages by considering the totality of circumstances without specific reference to an amount of actual damages. See *Community Television Systems, Inc. v. Caruso*, 134 F. Supp. 2d 455 (D. Conn. 2000), *aff’d*, 224 F.2d 430 (2d Cir. 2000) *Community Television Systems, Inc. v. Caruso*, 134 F. Supp. 2d 455 (D. Conn. 2000), *aff’d*, 224 F.2d 430 (2d Cir. 2000).

3. The Estimate of Actual Damages

A. Facts Pertaining to Estimate of Actual Damages

By Affidavit, the Plaintiff has asserted that:

- a. A particular converter/descrambler, bearing serial number CA79ABQSW, was issued by Comcast and it was in the account of/possession of the Defendant on or *before* April 13, 2000.
- b. Converter/descrambler CA79ABQSW was returned to Comcast by the Defendant or her agent on November 27, 2001.
- c. Shortly after Converter/descrambler CA79ABQSW (hereinafter the “device”) was returned to Comcast a Comcast employee tested the device; the test evidenced the fact that this device had been electronically modified while in the possession of the Defendant so as to allow for the unauthorized interception of secured cable system programming including premium and pay per view channels.

- d. During the period of time the unauthorized descrambling device was in possession of the Defendant, she never ordered a single premium channel nor did she order pay-per-view offerings;
- e. This Defendant's account history does reveal that the Defendant *did* purchase non-premium (non-scrambled) stations while in possession of the device.
- f. Even with a descrambling device the Defendant would have to pay for non-scrambled stations to receive them. Accordingly, the Defendant's account history is totally consistent with the covert use of a descrambling device.
- g. Based upon these facts and *without any input from the Defendant*, it could be inferred that the Defendant modified her converter/descrambler to get all premium channels and pay-per-view offerings soon after this device went into her account in April of 2000 and that it was thereafter working as an analog non-addressable descrambler until it was removed in November of 2001. This eighteen month period is the "pertinent time frame".
- h. During the pertinent timeframe, charges and offerings varied significantly but taking into account the length of time, the variations in price and variations in offerings, it is reasonable to state that the Defendant, through the use of the device, would have had access to all of the:
 - A. Premium channels with an *approximate on average* price of \$65.00 per month. This \$65.00 figure represents the value of the premium

channels the Defendant had access to over and above the non premium stations he was actually paying for;

B. Pay per view movie offerings with an *approximate on average* price of \$3.95 per movie. There were numerous movies offered per month.

C. Adult pay per view movie offerings with an *approximate on average* price of \$8.00 per movie. There were numerous Adult movies offered per month

D. Special event pay per view offerings (e.g.; boxing or wrestling match) with an *approximate on average* price of \$30.00 per special event. On average there was at least one special event per month.

i. Also of assistance in calculating the amount of unauthorized interception is the fact that Comcast did a detailed analysis of its legitimate, paying subscribers in a similar New England franchise as to their pay-per-view purchasing in the month of February, 2003. This analysis showed that a statistically significant number (.17%) of its legitimate, paying, high-end purchasers purchased fourteen (14) or more pay-per-view movies during that particular month, an average cost of \$55.30 per month.

B. Estimate utilizing reasonable inference of use method

In the case of *Comcast v Naranjo* 303 F. Supp. 2d 43 (D. Mass 2004), the Massachusetts Federal District Court estimated damages from the use of a homemade black box (a modified converter/descrambler) by making reasonable inferences of the amount of use of the device by the Defendant in that case. The Court in the *Naranjo* case

found that where an individual had access to a homemade black box, it was reasonable to infer that the monthly damages included:

- a. The cost of the premium channels the defendant had unauthorized access to each month (this is the differential between what a defendant pays for service and the cost of all of the premium channels that they are able to obtain with the descrambling device);
- b. Ten (10) pay-per-view movies each month;
- c. Four (4) of the more expensive pay-per-view offerings.

Applying these numbers to the cost of the services during the pertinent time frame as set forth in the Affidavit of the Plaintiff, an estimate of monthly damages based upon reasonable inferences of use would be:

The value of the premium channels received over and above what the defendant was paying for basic services	\$65.00
The value of ten pay-per-view movies,	\$39.50
The value of four more expensive pay-per-view events,	\$32.00
Total damage per month	\$136.50

C. Estimate of Actual Damages per month utilizing *high-end purchaser analysis*

By Affidavit, the Plaintiff has asserted that Comcast did an analysis of its legitimate, paying, legal subscribers in the region as to their pay-per-view purchasing in the month of February, 2003. This analysis showed that a statistically significant number (.17%) of its legitimate, paying, high-end purchasers purchased fourteen (14) or more pay-per-view movies during that particular month. Based upon these statistics the

Plaintiff asserts that if its high-end, legitimate, *paying*, legal customers purchase as many as fourteen or more paper views per month, it is clearly reasonable to infer that an individual like the Defendant who, when utilizing a descrambler (and not paying anything for pay-per-view offerings) would obtain at least as many pay-per-view movies per month as Comcast's legitimate high-end purchasers.

The cost of fourteen pay-per-view movies at the time in question was \$55.30. Adding this amount to the cost of the premium channels made available through the use of the descrambler (\$65.00) there would be a reasonable estimate of monthly damages of at least **\$120.30**. Indeed, the monthly figure for this Defendant should be considerably higher because, while the Plaintiff's analysis dealt with pay-per-view movies, the descrambling device would also allow the Defendant access to the more expensive pay-per-view offerings (e.g. adult offerings or sporting events). It is reasonable to infer that at least some monthly viewing by the Defendant would be of more expensive pay-per-view offerings.

D. Estimate of number of months of unauthorized interception.

The court in the *Naranjo* case found that the estimated duration of the unauthorized interception began at the time when the defendant came into possession of the subject device *and* last ordered a premium channel or pay-per-view advent and concluded as of the date the device was returned to the plaintiff. In this civil action this Defendant never ordered a premium channel or pay-per-view while this particular converter descrambler was in her possession.

From this information we can infer that the box was modified soon after it came into possession of the Defendant in April, 2000 and it was utilized until it was returned in November 2001. This represents approximately 18 months of unauthorized interception.

E. Conclusion as to estimates of actual damages

Using the above referenced the “high-end purchaser” formula for a figure of \$120.30 and multiplying it by 36 months duration estimate we achieve an estimate of actual damages for the assessment of \$2,165.40.

4. Assessing additional damages, over and above an estimate of actual damages, pursuant to the exemplary damages provision of the statute, 47 U.S.C. § 553(c)(3)(B), based upon the willfulness and private financial gain of the Defendant.

In the recent cases of *Charter v Burdulis* 367 F.Supp.2d 16, 2005 (D.Mass 2005) the Massachusetts Federal District Court found it could assess additional damages pursuant to 47 U.S.C. § 553(c)(3)(B) if it found the violations of 47 U.S.C. § 553(a) were willful and were for a private financial gain. *Id* at 20. The court went on to find that it was indeed willful to obtain and utilize a descrambler. *Charter* at 22.

The court in the *Charter* case also found that “An individual's use of a descrambler to obtain cable programming without paying for it constitutes ‘private financial gain’ within the meaning of the statute, absent usual circumstances not apparently present here.” *Charter* at 25. The *Charter* court stated that this reasoning was

also followed in the case of *Cablevision v Lokshin*, 980 F. Supp. 107 (E.D.N.Y. 1997). The Plaintiff asserts that the Defendant's actions in procuring and utilizing a homemade black box to avoid paying cable television bills were willful and intentional and these actions were done to give the Defendant a private financial gain subjecting her to the additional statutory damages pursuant to 47 U.S.C. § 553(c)(3)(B).

5. Assessing Additional Damages as a form of Deterrence.

At least three separate cases where courts have *specifically added statutory damages for the purpose of deterrence*. See *Time Warner v Domsky*, No. 96 Civ. 6851, 1997 U.S. Dist. LEXIS 13505 (S.D.N.Y. Sept. 2, 1997), *DIRECTV v Getchel* 2004 WL 1202717 (D. Conn. 2004) and *Cablevision v Collins* 2004 WL 1490307 (S.D.N.Y. 2004).

The court in the *Domsky* case clearly set forth the deterrence reasoning when, after estimating the damage in a manner similar to *Naranjo* it said:

While I find these amounts reasonably approximate the lost revenue from the use of a pirate box, it would not be sufficient deterrence if the damages payable by a violator were limited to the value of the stolen services. There would be no incentive to cease the violation if the penalty were merely the amount that should have been paid. *Id* at 18

The *Domsky* court then went on to double its estimate of damages as a form of deterrence when assessing the statutory damages. This reasoning was recently explicitly followed in the *Collins* case where that court also doubled its estimate of damages as a form of deterrence when assessing statutory damages.

The Connecticut Federal District Court recently considered willfulness and deterrence when assessing statutory damages for the unauthorized interception of television signals in the case of *DIRECTV v Getchel*, 2004 WL 1202717 (D. Conn. 2004). The court in the *Getchel* case cited to the case of *Cable/Home Communications*

corp. v. Network Productions, Inc., 902 F. 2d 829, 852 (11th cir. 1990) for the proposition that "In its broad discretion for determining statutory damages, the district court should consider both the willfulness of the defendant's conduct and the deterrent value of the sanction imposed." *Id* at 3. The court then went on to assess statutory damages above the statutory minimum finding that the minimum would "have no deterrent effect". *Id* at 3.

In this civil action, the Defendant has defaulted to the specific allegations that the violations were made in a willful and knowing manner. The converter/descrambler was not modified to obtain unauthorized signals by accident. Following the line of reasoning set forth in these cases, this Court should, at least, double its estimate of actual damages or, at a minimum, the Court should make an assessment of damage significant enough to act as a deterrent and to take into account the willfulness of the violation.

6. Assessing Statutory Damages by Considering the Totality of Circumstances without Specific Reference to an Amount for Actual Damages.

Some courts have assessed statutory damages without specifically discussing the parameters utilized when assessing the same. See *Community Television Systems, Inc. v. Caruso*, 134 F. Supp. 2d 455 (D. Conn. 2000), aff'd, 224 F.2d 430 (2d Cir. 2000) *Community Television Systems, Inc. v. Caruso*, 134 F. Supp. 2d 455 (D. Conn. 2000), aff'd, 224 F.2d 430 (2d Cir. 2000)

After a trial the Connecticut District Court in the *Community Television* case assessed statutory damages at \$10,000.00 per defendant for their unauthorized interception of television signals with black boxes in violation of 47 USC § 605(a). The

Second Circuit court of appeals upheld the amount of statutory damages award but ruled that the husband and wife should not each be assessed separate statutory damage awards.

The trial court in the *Community Television* case did not specifically discuss the amount of actual damages and it did not mention the word "deterrence"; rather it made general discussions as to the merits of the case. The trial court pointed out that 47 U.S.C. § 605(e)(3)(C)(i)(II) called for statutory damages "as the court considers just". The court then went on to assess the maximum statutory damages. Saying:

Here, the court considers the maximum in statutory damages, to be assessed against each defendant individually, to be just. Each defendant here appears to have employed a strategy of simply making it as difficult as possible for TCI to vindicate its rights. There was no merit to the arguments raised on behalf of the defendants at trial as to purported flaws in TCI's proof. In substance, each defendant merely rested on his or her Fifth Amendment right not to incriminate him or herself and the fact that the plaintiff has the burden of proof. No defendant gave any indication of having any concern about what would be "just" in this case. Moreover, as noted above, the defendants' actions have negative implications for TCI not only in terms of lost revenues, but also in terms of the good will of its honest customers and the technical integrity of TCI's cable system. This is in addition to the loss of tax revenues for the State of Connecticut. While others could be equally deserving of having assessed against the maximum in statutory damages, it is difficult to imagine a case where a defendant would be more deserving of being required to pay the maximum in statutory damages than is each of these defendants. *Id* 461-2

In this Civil Action the applicable statutory damage provision, 47 U.S.C. § 553(c)(3)(A)(ii), is extremely similar. It too calls for statutory damages "as the court considers just". Accordingly, this Court could consider generally the merits of the case when assessing statutory damages. In this civil action the Plaintiff, even without a default, had a very good case against the Defendant. The Defendant's total lack of response should not be considered anything less than, at a minimum, disrespect for

this Court and these proceedings. Accordingly, this Court could assess significant statutory damages based upon these general factors without reference to specific factors referenced above.

7. Conclusion

The Plaintiff is seeking \$4,000.00 in statutory damages. This amount can be derived from considering

- a. The rough estimate of actual damages;
- b. Some amount in consideration of deterrence;
- c. An assessment for the willful private financial gain garnered through the use of the unauthorized descrambling device; and
- d. Considering the Totality of Circumstances.

The Defendant has failed to appear and participate in Discovery in this Action. This failure has made a more accurate estimate of actual damages more difficult. Yet, it should not be the Plaintiff who is penalized because the Defendant did not show up in this action and participate in Discovery. If a reasonable inferences can be made based upon the uncontroverted evidence these inferences should be made. The Defendant had an opportunity to give evidence to attempt to rebut certain reasonable inferences regarding both liability and damages but the Defendant has waived this opportunity.

The \$4,000.00 amount the Plaintiff is seeking for statutory damages can be derived from any combination of any of the above referenced elements. For example, the court could easily achieve this number by:

- a. Considering some amount for actual damages and then doing a multiplication thereof by way of deterrence;
- b. Considering some amount for actual damages and increasing it based upon the willful financial gain of the Defendant;
- c. Considering the totality of the circumstances where the Plaintiff has clearly been injured by the intentional acts of the Defendant.

III. Injunctive Relief

Based upon the Defendant's liability as determined by the Default, the Plaintiff is entitled to injunctive relief against the Defendant pursuant to Title 47 U.S.C. § 553 (c) (2)(A) which provides that the Court:

“may grant temporary and final injunctions on such terms as it may deem reasonable to prevent or restrain violations of subsection (a)(1) of this section”

The Plaintiff need not prove irreparable harm for the injunction to issue. Where express authority for issuance of statutory injunctions is provided by legislative enactment, an injunction may issue without resort to the traditional “equitable” prerequisites so long as liability has been established under the statute. See *General Instrument Corp. v. Nu-Tek Electronics & Manufacturing, Inc.*, 3F. Supp 2d 602, 607 (E.D.Pa.1998), aff'd 197F.3d 83 (3d Cir.1999). The terms of the requested injunction are reasonably drafted to thwart any future piracy activities by the Defendant.

IV. Attorney's Fees

Pursuant to Title 47 U.S.C. 553(c)(2)(C), the Court should direct the recovery of full costs, including awarding reasonable attorneys fees to an aggrieved party who

prevails. The First Circuit follows the "lodestar" approach when awarding attorney's fees pursuant to a Federal statutory authorization. See, *Furtado v. Bishop*, 635 F.2d 915, (1st Cir. 1980). Using the "lodestar" approach, the Court would normally multiply the number of hours worked by a reasonable hourly rate. Utilizing the "lodestar" approach, the Court would, in essence, multiply the reasonable number of hours worked by a reasonable hourly rate. Plaintiff's counsel has filed an Affidavit with this court that would justify an attorney's fees award of \$763.00.

V. Post-judgment Interest

The Plaintiff is entitled to post-judgment interest accruing on the Judgment pursuant to 28 U.S.C. §1961. Said statute covers post-judgment interest on civil actions brought to judgment in U.S. District Courts.

VI. Costs

The Plaintiff is also entitled to costs incurred in this action pursuant to § 553, specifically:

- a. Filing Fee:
\$250.00
- b. Sheriff's Service Fee:
\$49.90

TOTAL COSTS:

\$299.90

VII. Conclusion

Pursuant to all of the above, the Plaintiff is entitled to a default judgment as follows:

1. \$4,000.00 in statutory damages pursuant to § 553;
2. Attorney's and paralegal's fees of **\$763.00**
3. Costs of **\$299.99**.
4. The issuance of a permanent injunction pursuant to Title 47 §553 utilizing the following language or language of a similar nature:

The Court hereby enjoins the Defendant, the Defendant's respective agents, servants, employees, and any person or entity controlled directly or indirectly by the Defendant or acting on the Defendant's behalf from the further modification and/or use of electronic equipment designed for the unauthorized interception of signal in violation of provisions of Title 47;

5. Post-judgment interest running on the judgment pursuant to 26 U.S.C. § 1961.

Respectfully Submitted for the Plaintiff,
By Its Attorney,

4/12/2006

**U.S. DISTRICT COURT
MIDDLE DISTRICT OF FLORIDA
ORLANDO, FLORIDA***fl***DIRECTV, INC.,****Plaintiff,****-vs-****Case No. 6:03-cv-1027-Orl-19KRS****DALE MILLER,****Defendant.**

ORDER

This case comes before the Court on the following:

1. Defendant's Motion for Summary Judgment. Doc. No. 21.
2. Memorandum in Support of Motion for Summary Judgment. Doc. No. 22.
3. Plaintiff DirecTV's Memorandum in Opposition to Defendant Dale Miller's Motion for Summary Judgment. Doc. No. 27.

Background

Plaintiff DirecTV ("DirecTV") broadcasts a variety of television programming from its network of satellites. DirecTV bundles its channels into programming packages and pay-per-view events so its customers can tailor their subscriptions to suit their own tastes. Doc. No. 27, p. 2. To ensure that only subscribers are able to watch its programming, DirecTV encrypts its satellite transmissions and requires its customers to use specialized equipment, including something called an access card, to decode the signals. *Id.* DirecTV continually upgrades its security protocols to exclude unauthorized viewers, known as pirates. One strategy is to transmit a special signal, called an electronic countermeasure, throughout the system which disables unauthorized access

cards by instructing them to perform a meaningless operation over and over again in an infinite loop. *Id.* at pp. 3-4.

Pirates, however, work just as assiduously to defeat DirecTV's encryption and electronic countermeasures. Various companies, including Vector Technologies, devised a way to "unloop" disabled access cards and thereby render them useful again for unlawfully decoding DirecTV. *Id.* at p. 4. It is undisputed in the record that Defendant bought two "Vector Super Unloopers" in March 2001 from Vector Technologies. It is further undisputed that these devices have no legitimate use and the purpose for which they were expressly designed is the theft of DirecTV viewing. *Id.* at p. 3.

Defendant does not deny that he purchased the unloopers. He simply avers that he has never illegally intercepted DirecTV. Doc. No. 24, Miller Aff. ¶ 3. He also states that he is a DirecTV subscriber. In support of this latter contention, he attaches to his memorandum a bill from DirecTV indicating that he was a subscriber in at least July and August, 2003.¹ Doc. No. 22, Ex. C.

Standard of Review

Summary judgment is authorized "if the pleadings, depositions, answers to interrogatories, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law." Fed. R. Civ. P. 56(c); *accord Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242, 248 (1986). Summary judgment is appropriate only in circumstances where "the evidence is such that a reasonable jury could [not] return a verdict for the

¹ This bill is labeled Exhibit "C." Exhibits "A" and "B," however, do not appear to exist.

nonmoving party." *Id.* The moving party bears the burden of proving that no genuine issue of material fact exists. *Celotex v. Catrett*, 477 U.S. 317, 323 (1986).

In determining whether the moving party has satisfied the burden, the court considers all inferences drawn from the underlying facts in the light most favorable to the party opposing the motion and resolves all reasonable doubts against the moving party. *Anderson*, 477 U.S. at 255. The court may not weigh conflicting evidence or weigh the credibility of the parties. *See Hairston v. Gainesville Sun Pub. Co.*, 9 F.3d 913, 919 (11th Cir. 1993) (citation omitted). If a reasonable fact finder could draw more than one inference from the facts, and that inference creates an issue of material fact, then a court must not grant summary judgment. *Id.* (citation omitted).

Analysis

1. Overview

Defendant's motion for summary judgment is premised on his belief that DirecTV "must provide testimony, a witness, or some scintilla of evidence of **actual illegal interception of the satellite signal.**" Doc. No. 22, p. 1 (emphasis in original). He contends that DirecTV has "**no credible evidence**" to substantiate its allegation that he pirated its broadcasts. *Id.* at p. 2 (emphasis in original). What Defendant appears to mean is that DirecTV cannot prevail as a matter of law because it does not have the testimony of an eyewitness who saw Defendant using his unlooper to watch illegally intercepted programming. Defendant also points for good measure to a bill from DirecTV indicating that he paid for a July 2003 subscription and owed for an August 2003 subscription. *Id.*, Ex. C. This is presumably meant to imply that Defendant is a

legitimate customer. As will become evident, however, Defendant's conclusions are grounded in poor reasoning and an erroneous understanding of the law of evidence.

DirecTV, on the other hand, argues that 18 U.S.C. section 2520 imposes civil liability for violations of the criminal provision 18 U.S.C. section 2512, which makes it a crime, *inter alia*, to possess any device whose primary purpose is the unauthorized interception of wire, oral, or electronic communications. Doc. No. 27, pp. 1, 5-8. In support of its argument, DirecTV cites the legislative history of section 2512 as well as *U.S. v. Herring*, 993 F.2d 784 (11th Cir. 1993). *Id.* at pp. 5-8. As will become evident, however, these citations are not only inapposite but irrelevant as well because the Court has already ruled that DirecTV may not recover civilly for a violation of section 2512.

The Court will address the arguments of each party in turn, beginning with DirecTV.

2. Is DirecTV's evidence of a section 2512 violation sufficient to resist summary judgment?

DirecTV's memorandum in opposition to summary judgment focuses exclusively on count three of the complaint, a violation of 18 U.S.C. section 2512. See Doc. No. 27, pp. 5-8. DirecTV contends that Defendant's purchase of the unloopers is conclusive proof that he violated section 2512, which criminalizes the possession of piracy equipment, and he is, therefore, civilly liable pursuant to section 2520.

While its reasoning is impeccable, DirecTV overlooks one salient fact: DirecTV's cause of action under section 2512 was dismissed in September, 2003. See Doc. No. 17. The only pending claims against Defendant are counts one and two, which DirecTV

neglects to address in any way in its memorandum. Strictly speaking, DirecTV's failure to contest Defendant's motion for summary judgment on counts one and two creates a strong presumption that the requested relief is unopposed. *See Doc. No. 20, p. 5.* (Case Management and Scheduling Order stating "Where no memorandum in opposition has been filed, the Court routinely grants the motion as unopposed."). DirecTV, in other words, has exposed itself to an adverse summary judgment ruling because it has not addressed the issues on point in response to Defendant's motion for summary judgment.

3. Could a reasonable jury find for DirecTV?

As mentioned earlier, Defendant contends that he cannot be held liable under counts one and two, which claim that he stole DirecTV's programming in violation of 47 U.S.C. section 605(a) (count one) and 18 U.S.C. section 2511 (count two), because DirecTV has no eyewitness evidence that he ever used his unloopers to intercept satellite transmissions illegally. He cites *DirecTV v. Jacas*, 6:03-cv-800-ORL-31-JGG, which held that a default judgment for illegal interception was improper where DirecTV's evidence consisted of nothing but an inference of interception based on the mere possession of satellite piracy equipment. *See Doc. No. 22, p. 2.* Defendant makes two additional assertions. First, he claims that he is an active DirecTV subscriber, implying, the Court supposes, that he is a legitimate customer, not a signal pirate. *Id.* Second, he contends his "litigation is part of a cynical corporate strategy that is abusing the Federal Court System on a nationwide basis." *Id.*

To begin with, Defendant must understand that there are two types of evidence: direct and circumstantial. Direct evidence consists of evidence which "if believed

immediately establishes the factual matter to be proved by it without the need for inferences." *Merriam-Webster's Dictionary of Law* (1996). Examples of direct evidence include eyewitness testimony or a videotape of some wrongdoing. Circumstantial evidence, on the other hand, tries to prove a primary fact by proving related facts, which if believed support an inference that the primary fact is true. *Id.* Examples of circumstantial evidence include fingerprints or DNA, which, if found at a crime scene, support the inference that the person to whom the fingerprints or DNA belong was at the crime scene. Direct evidence is neither inherently superior to nor inferior to circumstantial evidence. The reliability and persuasiveness of all evidence, whether direct or circumstantial, must be evaluated on a case-by-case basis.

When Defendant states that DirecTV has no evidence that he has illegally intercepted satellite transmissions, what he means to say is that DirecTV has no direct evidence. DirecTV, in other words, does not have eyewitness testimony or videotape evidence of Defendant sitting in his living room watching DirecTV for free. DirecTV does, however, have circumstantial evidence that Defendant pirated its broadcasts: Defendant purchased illegal piracy equipment. His purchases support the inference that he used his illicit equipment to intercept broadcasts illegally. Under Federal Rule of Civil Procedure 56, summary judgment is inappropriate when the Court concludes as a matter of law that a reasonable jury, upon careful consideration of the evidence, could find for the non-movant (which in this case is DirecTV). *See supra*, pp. 2-3, Standard of Review. The relevant question, therefore, is whether a reasonable jury could, on the basis of DirecTV's circumstantial evidence, conclude that Defendant pirated DirecTV's signals.

A reasonable jury could conclude that Defendant illegally stole DirecTV's programming. Based on their life experience, a jury could reasonably assume that people only buy electronic equipment such as televisions, computers, or (in the case of Defendant) satellite piracy unloopers when they plan to use such equipment. It would be a strange world, after all, if people regularly bought such equipment and then put it in the closet to collect dust. With this assumption in mind, a reasonable jury could then reject Defendant's self-serving testimony that he has never pirated satellite signals and conclude instead that he did what normal people do after they buy electronic equipment – they use it.²

Defendant's evidence that he is or perhaps was a DirecTV subscriber in good-standing has minuscule probative value. Defendant's bill from DirecTV, which he attached to his memorandum as an exhibit, indicates only that he paid for one month of DirecTV in the summer of 2003 and was being billed for a subsequent month. Defendant apparently hopes to use this circumstantial evidence to support the inference that he has never stolen DirecTV programming because he has paid for at least one month of it. It is self-evident, however, that a single payment to DirecTV a few months ago does not prove in any way that Defendant never used his unloopers, purchased in March 2001, to steal DirecTV broadcasts.³

² To the extent that the *Jacas* opinion concludes that DirecTV's circumstantial evidence is inadequate as a matter of law to support an inference of signal piracy, this Court respectfully disagrees.

³ Other than to note that casting gratuitous aspersions on the integrity of DirecTV is improper, the Court will ignore Defendant's unsupported conclusion that DirecTV's lawsuit against him is cynical and abusive.

4. Is summary judgment appropriate?

Summary judgment is inappropriate. While DirecTV failed to oppose Defendant's motion for summary judgment on the only pending claims and Defendant based his motion on a misunderstanding of the law, the uncontested evidence before the Court nonetheless establishes the existence of a disputed question of material fact. In this case, the Court must look past the substandard memoranda and into the record because it is anathema to justice to resolve a genuine controversy simply by weighing the errors of one party against the errors of another. Despite the efforts of Plaintiff and Defendant to obfuscate the issue, liability under counts one and two of the complaint depends on the resolution by a jury of a material question of fact: does Defendant's purchase of two unloopers support the inference that he used those pirate access devices to steal DirecTV programming? The Court, therefore, denies Defendant's motion for summary judgment and instructs the parties, especially counsel for DirecTV, to adhere in the future to a higher standard of professionalism.⁴

⁴ While it is true that *pro se* parties like Defendant are entitled to lenience from the Court, this is not a license to ignore the duty to research both the facts and the law. Defendant is reminded that his decision to proceed *pro se* does not mean that the Court steps in on his behalf as legal counsel.

CONCLUSION

For the foregoing reasons, Defendant's motion for summary judgment (Doc. No. 21) is **DENIED**.

DONE and **ORDERED** in Chambers in Orlando, Florida this 20^{Year} day of November, 2003.

1997 U.S. Dist. LEXIS 13505, *

Time Warner Cable of New York City, Plaintiff, - against - Linda Domsky, et al.,
Defendants.

96 Civ. 6851 (DAB) (RLE)

UNITED STATES DISTRICT COURT FOR THE SOUTHERN DISTRICT OF NEW YORK

1997 U.S. Dist. LEXIS 13505

September 2, 1997, Decided

DISPOSITION: [*1] Recommended that this judgment entered for plaintiff in the amount of \$ 8,590.24 against Mendez and \$ 6,840.24 against Malik.

CASE SUMMARY

PROCEDURAL POSTURE: Plaintiff cable television company sought damages from defendants individuals under the Communications Act of 1934, as amended, [47 U.S.C.S. §§ 553](#)(a) and 605(a), for intercepting the cable company's signals.

OVERVIEW: Defendants were individuals who used pirate boxes to intercept the cable company's scrambled signals. The cable company sued the individuals and won default judgments. The cable company then sought damages under the § 605(a). The court entered judgment for the cable company awarding damages for willful violation of § 605(a) of \$ 8,590.24 against one individual and \$ 6,840.24 against the other plus attorney's fees. The court found that each individual's use of a pirate box was a single statutory violation. Although these amounts reasonably approximated the cable company's lost revenue from the use of the pirate box, they were not sufficient deterrence to limit the damages to the value of the stolen services. Therefore, the court set the damage award at roughly twice the amount of fees avoided, or \$ 250 for each month the pirate box was used.

OUTCOME: The court entered judgment entered for the cable television company in the amount of \$ 8,590.24 against one individual and \$ 6,840.24 against the other individual.

CORE TERMS: programming, subscriber, pay-per-view, premium, pirate, channel, converter-decoder, cable television, scrambled, unauthorized, reception, signal, cable, box, subscription, descramble, movies, cable television system, broadcast, television, decoder, tier, recommend, willful, viewing, cable operator, scrambling, addressability, descrambling, intercept

OPINIONBY: Ronald L. Ellis

OPINION: REPORT AND RECOMMENDATION

To the HONORABLE DEBORAH A. BATTIS, U.S.D.J.:

I. INTRODUCTION

This is an action by a cable television system operator against twenty-one individuals for unauthorized interception and viewing of plaintiff's "scrambled" cable-borne television signals by means of an illegal decoder device. On February 10, 1997, default judgments were entered against Sigfredo Mendez and Jackie Malik, the two defendants who are the subject [\[*2\]](#) of this Report and Recommendation. The matter was referred to the undersigned for an inquest on damages. Plaintiff seeks damages pursuant to the Communications Act of 1934, as amended, [47 U.S.C. §§ 553\(a\)](#) and [605\(a\)](#). For the reasons stated below, I recommend that judgment be entered for plaintiff in the amount of \$ 8,590.24 against Mendez and \$ 6,840.24 against Malik.

II. BACKGROUND

Time Warner Cable of New York City ("TWCNYC") is a cable television operator which has been awarded franchises by New York City. Affidavit of Thomas Allen, dated March 9, 1997, submitted in support of inquest for damages ("Allen Aff."), at P 2. Pursuant to these franchises, TWCNYC is authorized to construct, operate and maintain cable television programming in New York, Kings, and Queens Counties. **Id.** TWCNYC programming consists of various tiers of cable television programming and

different individual programming channels. **Id.** at P 3. The "Broadcast Basic" and "Standard" service tiers, for example, are levels of cable television programming service which an individual can subscribe to at a monthly rate which allows a subscriber to receive a package of different programming channels, **[*3]** such as CNN, A&E and MTV, but does not include any "premium" or pay-per-view programming. **Id.** at P 3.

TWCNYC subscribers may elect to subscribe to one or more "premium" programming services such as Cinemax, Home Box Office and Showtime, for an additional monthly charge per service. **Id.** at P 4. TWCNYC also offers pay-per-view programming, which is a service enabling a subscriber to purchase individual movies, sporting events, or other entertainment for a per-event fee over and above the subscriber's regular monthly fee. **Id.** at P 5. Each subscriber is entitled to receive only the level of programming and services which he or she selects and pays for. **Id.** at P 6.

TWCNYC receives the signals to all of its premium and most of its pay-per-view programming channels by transmissions received via orbiting satellites from the producers of such programming. **Id.** at P 7. TWCNYC's premium and pay-per-view programming is protected from unauthorized reception during its transmission to TWCNYC's satellite reception facilities, known as the cable "head-end." **Id.** The signals for all of TWCNYC's cable television services are transmitted from **[*4]** TWCNYC reception facilities to subscribers' residences through a network of cable wiring and equipment (the "System"). TWCNYC retransmits or "cablecasts" the signals to its premium and pay-per-view programming, along with all other programming offered by TWCNYC, in a simultaneous data stream to subscribers over its cable television system. **Id.**

For a subscriber to receive these transmitted cable television signals on his or her television set, TWCNYC provides each subscriber with a device known as a "converter," which converts the multiple signals simultaneously transmitted over the System into different "channels," which can be viewed on a subscriber's television set. **Id.** at P 8. To prevent subscribers from receiving programming services for which they have not paid, TWCNYC encodes or "scrambles" the signals to all of its premium and pay-per-view programming services. **Id.** at P 9. "Scrambling" is a principal security measure used by TWCNYC and other cable operators to protect their programming services against unauthorized reception of service. **Id.** Subscribers purchasing scrambled channel options are provided with a device known as a "descrambler" **[*5]** or "decoder," which is incorporated into a converter. **Id.** The decoder descrambles the encrypted programming which is purchased by a subscriber so that the purchased programming can be viewed clearly on a subscriber's television set. **Id.** Programming not purchased will continue to be scrambled and, therefore, will be unviewable on the subscriber's television set. **Id.**

TWCNYC separately authorizes, either by a technical modification or by a computer command, each of the converter-decoders provided to its subscribers to descramble only those scrambled programming channels which the respective subscriber has selected and purchased. **Id.** at P 10. The converter-decoders which TWCNYC provides to its subscribers have the technology feature and function known as "addressability." **Id.** Addressability is a communication link between a cable operator's central computer and the descrambling and computer circuitry in each converter-decoder provided to its subscribers. **Id.** Addressability enables a cable operator to send a signal command to the converter-decoders assigned to those subscribers who have purchased a pay-per-view program. **[*6]** **Id.** The signal

command instructs the converter-decoder assigned to those subscribers to descramble the particular pay-per-view program which has been purchased. **Id.** When the pay-per-view program is over, another command is sent for those converter-decoders to resume scrambling pay-per-view programming. **Id.** This procedure limits a subscriber's authorized reception of pay-per-view programming to only those programs which have been purchased. **Id.** Addressability also enables a cable operator to upgrade or downgrade their subscribers' authorized levels of service without having to mechanically alter or physically replace a converter-decoder by way of a service call to a subscriber's residence. **Id.**

TWCNYC's contract agreements with its subscribers forbid unauthorized tampering with TWCNYC's equipment and the unauthorized reception of programming services. **Id.** at P 12. It is possible, however, for an individual to install a modified or "pirate" converter-decoder onto TWCNYC's cable system in place of TWCNYC's authorized converter-decoder. **Id.** "Pirate" devices enable reception of all of TWCNYC's scrambled programming, including [*7] all premium and pay-per-view channels, without the subscriber paying for such programming. **Id.** In most cases, TWCNYC cannot detect or prevent the theft of its programming services from "pirate" converter-decoders without affirmative permission from a subscriber to conduct an on-site inspection. **Id.**

TWCNYC's claims against defendants Malik and Mendez arose after TWCNYC recovered the records of the business known as Freedom Electronics of Fort Lauderdale, Florida ("Freedom"). **Id.** at P 13. TWCNYC instituted litigation against Freedom for its sale and distribution of "pirate" converter-decoders which Freedom knew and intended would be used to intercept and descramble TWCNYC's scrambled premium, pay-per-view and other programming service without TWCNYC's authorization. **Id.** Freedom's business records included sales invoices of "pirate" converter-decoders which Freedom sold and shipped to TWCNYC subscribers. **Id.** TWCNYC's complaint against the two defendants in default, Jackie Malik and Sigfredo Mendez, alleges that these individuals intercepted and received TWCNYC's premium and pay-per-view programming without TWCNYC's authorization by the [*8] use of "pirate" converter-decoders purchased from Freedom. **Id.**

A. Sigfredo Mendez

The sales records of Freedom indicate that on February 9, 1994, Mendez purchased a "Base Band Epoxy Cube," which was shipped to his residence in New York County. **Id.** at P 14. A Base Band Epoxy Cube is a "pirate" cable descrambling device which is manufactured only by "pirate" vendors such as Freedom and is not used by any franchised cable television operator. **Id.** The sole function of this device is to enable its user to descramble cable television broadcasts, and it has no legitimate (non-theft related) purpose on a cable television system. **Id.** This device is specifically designed to defeat the type of scrambling technology used by TWCNYC on its cable television system in lower Manhattan, where Mendez resides, thereby enabling Mendez to have unauthorized access to all of TWCNYC's scrambled premium and pay-per-view programming. **Id.**

From April 16, 1987, to the present, Mendez has been a residential subscriber to TWCNYC's cable television service at his residence. On February 9, 1994, the date he purchased the "pirate" box, Mendez subscribed to TWCNYC's [*9] "Standard" service tier and had purchased a subscription to two premium channels, Cinemax and Showtime. **Id.** On February 28, 1994, Mendez downgraded and canceled his

subscription to Cinemax and Showtime to just Standard service. **Id.** Later, on April 13, 1995, Mendez canceled his subscription to Standard service and ordered TWCNYC's "Broadcast Basic" service tier. **Id.** Mendez has not purchased any pay-per-view programming since February 9, 1994. **Id.**

B. Jackie Malik

The sales records of Freedom indicate that on September 9, 1994, Malik purchased a "97.5 Cube," which was shipped to her residence in New York County. **Id.** at P 16. This device is another type of "pirate" cable descrambling device which is manufactured only by "pirate" vendors and is not used by any franchised cable television operator. **Id.** The sole function of this device is to enable its user to descramble cable television programming services such as premium and pay-per-view channels, and it has no legitimate (non-theft related) purpose on a cable television system. **Id.** This device is specifically designed to defeat the type of scrambling technology used [*10] by TWCNYC on its cable television system in lower Manhattan, where Malik resides, thereby enabling Malik to have unauthorized access to all of TWCNYC's scrambled premium and pay-per-view programming. **Id.**

From August 30, 1994 to the present, Malik has been a residential subscriber to TWCNYC's cable television service at her residence. **Id.** at P 17. On September 9, 1994, the date of Malik's purchase of a descrambling cube, Malik subscribed to TWCNYC's "Standard" service tier. **Id.** Between September 9, 1994 and the institution of this action, Malik did not purchase any premium or pay-per-view channels and her subscription to Standard service was constant and unchanged. **Id.**

By use of the "pirate" devices purchased from Freedom, defendants Mendez and Malik had access to all of TWCNYC's scrambled premium channels and had constant, round-the-clock reception to pay-per-view programming services without having to pay for such programming. **Id.** at P 18.

TWCNYC's Standard service carries a subscription rate of approximately \$ 30 per month. **Id.** at 8 n.2. A subscription to all of TWCNYC's premium channels costs approximately \$ 70 per month. [*11] **Id.** Pay-per-view movies cost approximately \$ 4 per event, while some pay-per-view special events, such as championship boxing matches, can cost as much as \$ 40. **Id.** Although it is not possible to know exactly how many programs were intercepted by defendants, they could have viewed hundreds of dollars worth of programming each month.

III. DISCUSSION

The defendants have failed to appear or defend in this action and have been adjudged in default by the order entered by Judge Batts. *HN1* "[A] default judgment entered on well-pleaded allegations in a complaint establishes a defendant's liability."

Bambu Sales, Inc. v. Ozak Trading, Inc., 58 F.3d 849, 854 (2d Cir. 1995)

(quoting **Trans World Airlines, Inc. v. Hughes, 449 F.2d 51, 63 (2d Cir. 1971), rev'd on other grounds, 409 U.S. 363, 34 L. Ed. 2d 577, 93 S. Ct. 647(1973).**

Plaintiff was directed by the undersigned to submit affidavits and any other documentation in support of its request for damages. Plaintiff argues that each month of unauthorized service is a separate statutory violation and seeks maximum statutory damages of \$ 10,000 under **47 U.S.C. § 605** for each of the claimed [*12] violations.

A. Statutory Framework

HN2 Section 553(a) of title 47 of the United States Code provides, in pertinent part: No person shall intercept or receive or assist in intercepting or receiving any communications service offered over a cable system, unless specifically authorized to do so by a cable operator or as may otherwise be specifically authorized by law.

HN3 Subsection (b) prescribes criminal penalties for willful violations, and subsection (c) creates a civil cause of action for "any person aggrieved by any violation of subsection (a)(1)." Civil remedies include injunctive relief, damages, costs and attorney's fees. [47 U.S.C. § 553\(c\)\(2\)](#). As to damages, the party aggrieved may prove "actual damages" as specified in subsection (c)(3)(A)(i), or, as plaintiff has done here, may elect to receive, under subsection (c)(3)(A)(ii), "statutory damages for all violations involved in the action, in a sum of not less than \$ 250 or more than \$ 10,000 as the court considers just." Whichever method of computation of damages is chosen, the amount awarded may be increased if plaintiff proves willfulness or decreased if defendant proves innocence. [47 U.S.C. §§ 553\(c\)\(3\)\(B\)](#) [*13] and (C).

HN4 Section 605(a) of title 47 of the United States Code provides, in pertinent part: No person not being authorized by the sender shall intercept any radio communication and divulge or publish the existence, contents, substance, purport, effect, or meaning of such intercepted communication to any person.

[47 U.S.C. § 605\(a\)](#). **HN5** Subsections (e)(1) and (2) prescribe criminal penalties, and subsection (e)(3) creates a civil right of action for "person[s] aggrieved." [47 U.S.C. § 605\(e\)\(3\)\(A\)](#). Civil remedies include injunctive relief, costs and attorney's fees, § 605(e)(3)(B)(i) and (iii); and either "actual damages," § 605(e)(3)(C)(i)(I), or "an award of statutory damages for each violation . . . in a sum of not less than \$ 1,000 or more than \$ 10,000 . . . , " § 605(e)(3)(C)(i)(II). In provisions that correspond to § 553(c)(3)(B) and (C), the amount awarded under § 605 may be increased if plaintiff proves willfulness or decreased if defendant proves innocence. §§ 605(e)(3)(C)(ii) and (iii).

B. Defendants' Liability

TWCNYC's **HN6** programming is broadcast via orbiting satellites and is therefore protected under [47 U.S.C. § 605\(a\)](#) as radio communications, [*14] and defendants' unauthorized reception is a violation of [47 U.S.C. § 605\(a\)](#), which prohibits the unauthorized reception of protected radio communications, as well as § 553 (a)(1), which protects all communication by cable systems. [International Cablevision, Inc. v. Sykes](#), 75 F.3d 123, 133 (2d Cir. 1996) ("Sykes II"); [Time Warner Cable of New York City v. U.S. Cable T.V., Inc.](#), 920 F. Supp. 321, 328-29 (E.D.N.Y. 1996). TWCNYC is a "person aggrieved" within the meaning of [47 U.S.C. §§ 553\(c\)\(1\)](#) and [605\(e\)\(3\)\(A\)](#).

HN7 When a court determines that a defendant's conduct has violated both § 605 and § 553 of the Communications Act, a plaintiff may recover damages only under one of those sections. [American Cablevision of Queens v. McGinn](#), 817 F. Supp. 317, 320 (E.D.N.Y. 1993). An aggrieved cable operator is entitled to elect to recover

damages under § 605 in consideration of § 605's higher damages awards.

International Cablevision, Inc. v. Sykes, 997 F.2d 998, 1007 (2d Cir. 1993); Sykes II, 75 F.3d at 127.

TWCNYC has elected to recover money damages against each defendant in the form of statutory damages as opposed to actual damages, and [*15] seeks enhancement for willful violations. Because this case resulted in a default judgment, there is no evidence to contest the finding of willful violation. Defendants, however, could not have believed that they were legitimately entitled to descramble the broadcasts using the pirate boxes. These were willful violations. Plaintiff is entitled to some enhancement of the damages award. Although there is no proof that defendants profited from the use of the illegal boxes, such use did deprive plaintiff of significant income. The enhancement of damages for willfulness should, therefore, take into account the duration of the violation.

C. Calculation of Damages

TWCNYC argues that each month in which the pirate device was used by one of the defendants constitutes a separate violation because each month represents a separate billing cycle in which the defendants failed to purchase programming. In addition, TWCNYC asserts that the violations were willful and justify awarding damages at the highest level. TWCNYC thus seeks the maximum statutory damages of \$ 10,000 for each month for which the device was connected. Defendant Mendez used his device for a period of thirty-one (31) [*16] months and defendant Malik for a period of twenty-four (24) months. This results in damage requests of \$ 310,000 and \$ 240,000 against Mendez and Malik, respectively.

The court disagrees with plaintiff that each month should be considered a separate statutory violation. In this case, the violation is the use of a pirate box to intercept TWCNYC's scrambled cable broadcasts. While the interpretation suggested by TWCNYC would maximize the damages and, therefore, the deterrence effect, the statutory language more strongly supports the conclusion that there was one violation in this case, although of varying duration for each defendant. Indeed, if the court were to follow the plaintiff's reasoning, there would be a violation for each pay-per-view telecast. Each pay-per-view program requires a separate authorization from plaintiff and would therefore be considered a separate violation under plaintiff's analysis. I find that each defendant's use of a pirate decoder constitutes a single statutory violation.

According to plaintiff, its Basic service costs approximately \$ 30 per month while subscription to all premium channels costs approximately \$ 70 per month. The plaintiff thus potentially [*17] loses \$ 40 per month when a pirate box allows a user to receive scrambled channels. In addition, the plaintiff provides multiple pay-per-view events, movies, and special events each month. Pay-per-view movies cost approximately \$ 4 per viewing, and special events, such as boxing matches, may cost as much as \$ 40 per broadcast. While it is not possible to know how many movies the defendants would have viewed illegally, more than a dozen movies are available each month. The viewing of ten to twelve movies at \$ 4 per movie and one premium event at \$ 40 would result in an additional loss to plaintiff of approximately \$ 80 to \$ 88 per month. n1 Adding this amount to the \$ 40 lost on premium programming, the total loss to plaintiff would be approximately \$ 120 to \$ 128 per month.

----- Footnotes -----

n1 These decoders were used in private residences. While in theory defendants could have viewed every pay-per view offering each time it was broadcast, I have attempted to make a reasonable assessment of actual use by a private violator as opposed to a commercial violator. Time and taste would limit the actual viewing by defendants.

----- End Footnotes----- [*18]

While I find that these amounts reasonably approximate the lost revenue from the use of a pirate box, it would not be sufficient deterrence if the damages payable by a violator were limited to the value of the stolen services. There would be no incentive to cease the violation if the penalty were merely the amount that should have been paid. The statute recognizes this fact in setting a minimum damage award of \$ 1,000. I find that the damage award should be roughly equivalent to twice the amount of fees avoided, or approximately \$ 250 per month.

Defendant Mendez began using his pirate box on or about February 1994 and defendant Malik began using his box in September 1994. The complaint was filed in September 1996. Mendez thus deprived TWCNYC of thirty-one (31) months of payments and Mendez, twenty-four (24) months. At \$ 250 per month, Mendez shall be liable for damages of \$ 7,750 and Malik for damages of \$ 6,000.

C. Attorney's Fees

Plaintiff has submitted an affidavit by William B. Jung indicating the tasks performed, the hours spent, and the rate requested. I have examined the supporting documentation and conclude that plaintiff's attorney's fees and disbursements were reasonable [*19] and adequately documented. Plaintiff seeks a total award of \$ 1,680.48, divided equally between the two defendants. I therefore recommend that TWCNYC be awarded \$ 840.24 against each defendant.

III. CONCLUSION

For willful violation of § 605(a), I recommend that defendant Mendez pay statutory damages of \$ 7,750, plus costs and attorney's fees of \$ 840.24, for a total of \$ 8,590.24. For willful violation of § 605(a), I recommend that defendant Malik pay statutory damages of \$ 6,000, plus costs and attorney's fees of \$ 840.24, for a total of \$ 6,840.24. Judgment should be entered accordingly.

Pursuant to [Rule 72, Federal Rules of Civil Procedure](#), the parties shall have ten (10) days after being served with a copy of the recommended disposition to file written objections to this Report and Recommendation. Such objections shall be filed with the Clerk of the Court and served on all adversaries, with extra copies delivered to the chambers of the Honorable Deborah A. Batts, 500 Pearl Street, Room 2510, and to the chambers of the undersigned, Room 1970. Failure to file timely objections shall constitute a waiver of those objections both in the District Court and on later appeal [*20] to the United States Court of Appeals. [See Thomas v. Arn, 474 U.S. 140, 150, 88 L. Ed. 2d 435, 106 S. Ct. 466 \(1985\); Small v. Secretary of Health and Human Services, 892 F.2d 15, 16 \(2d Cir. 1989\) \(per curiam\); 28 U.S.C. §](#)

United States District Court,
D. Connecticut.
DIRECTV, INC., Plaintiff,
v.
Brendan GETCHEL, Defendant.
No. 3:03 CV 2073(GLG).
May 26, 2004.

Wayne D. Lonstein, Lonstein Law Office, Ellenville, NY, for Plaintiff.

MEMORANDUM DECISION

GOETTEL, J.

*1 On March 25, 2004, this Court granted Plaintiff's Motion for Default Judgment against Defendant, Brendan Getchel, who was alleged to have utilized a "pirate" cable television decoding device at his home to intercept DIRECTV's programming services without authority and without payment to DIRECTV. DIRECTV alleged that Getchel purchased this device and related equipment on April 6, 2001, from a Canadian company by using interstate or foreign wire facilities. It further alleged that Getchel's conduct has deprived it of subscription and pay-for-view revenues, has compromised its security and accounting systems, and infringed its trade secrets and proprietary information, and has interfered with its contractual and prospective business relations.

DIRECTV sets forth three substantive claims in its complaint: (1) Getchel's unauthorized reception of satellite signals in violation of the Federal Communications Act of 1934, as amended, [47 U.S.C. § 605\(a\)](#); (2) his unauthorized interception of electronic communications in violation of the Electronic Communications Privacy Act, [18 U.S.C. § 2511\(1\)\(a\)](#) and/or [§ 2511\(1\)\(b\)](#); and (3) his possession of a pirate access device in violation of [18 U.S.C. § 2512\(1\)\(b\)](#). The Motion for Default Judgment, however, seeks damages only on the Communications Act claim. [\[FN1\]](#) (Pl.'s Mot. and Affirmation in Support of Default at ¶ 11; Pl.'s Mem. in Support of Default Judgment at 5; Pl.'s Mem. of Law in Support of Request for Damages at 5. [\[FN2\]](#))

FN1. We note that in two cases factually similar to the instant case, the courts declined to award damages under [18 U.S.C. § 2520\(c\)\(2\)](#) (providing for actual damages or statutory damages of \$100 a day for each day of violation or \$10,000, whichever is greater) where there was

no evidence as to how many days the defendant used the pirate access device or that the defendant had profited significantly from his violations or induced others to engage in similar conduct. See [DIRECTV, Inc. v. Kaas](#), 294 F.Supp.2d 1044, 1048-49 (N.D.Iowa 2003); [DIRECTV, Inc. v. Perrier](#), No. 03-CV-400S, 2004 WL 941641, at *4 (S.D.N.Y. Mar. 15, 2004); but see [DIRECTV, Inc. v. Braun](#), No. 3:03CV937, 2004 WL 288805, at *1 (D.Conn. Feb. 9, 2004) (awarding \$10,000 in damages under [§ 2520\(c\)\(2\)\(B\)](#), although, in that case, there were no damages claimed under [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)](#), as in the instant case). In *Kaas* and *Perrier*, however, the courts awarded damages under [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)](#). In the instant case, there is no evidence concerning Getchel's actual use of the pirated device or that he profited from it, except avoiding subscription charges with DIRECTV. Therefore, we only award damages under [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)](#).

FN2. At the request of the Court, DIRECTV submitted a memorandum on damages, which was served on Getchel. No response has been filed by Getchel.

Discussion

Because a default has been entered, the allegations of the complaint that establish Getchel's liability are accepted as true. See *Greyhound Exhibitgroup, Inc. v. E.L.U.L. Realty Corp.*, 973 F.2d 155, 158 (2d Cir.1992), cert. denied, 506 U.S. 1080, 113 S.Ct. 1049, 122 L.Ed.2d 357 (1993); *Fed.R.Civ.P. 8(d)*. Damages, however, must be established by proof, unless the damages are liquidated or "susceptible of mathematical computation," *Flaks v. Koegel*, 504 F.2d 702, 707 (2d Cir.1974), which these are not. A hearing on damages is not required as long as the Court ensures that there is a basis for the damages awarded. See *Transatlantic Marine Claims Agency, Inc. v. Ace Shipping Corp.*, 109 F.3d 105, 111 (2d Cir.1997); see generally *Cablevision of Southern Conn., Ltd. P'ship v. Smith*, 141 F.Supp.2d 277, 281- 82 (D.Conn.2001).

Based on the allegations of the complaint, which are deemed admitted, the Court finds that Getchel has violated the Communications Act, [47 U.S.C. § 605\(a\)](#), [FN3] by virtue of his receipt of DIRECTV's satellite transmissions of television programming without authorization. See *International Cablevision, Inc. v. Sykes*, 75 F.3d 123, 133 (2d Cir.), cert. denied, 519 U.S. 929, 117 S.Ct. 298, 136 L.Ed.2d 217 (1996) (holding that an individual's use of a "pirate" cable television descrambling device to intercept without authorization programming services transmitted via satellite constituted a violation of [§ 605\(a\)](#)). The Court may reasonably conclude that Getchel purchased the device in order to pirate DIRECTV's transmissions. There is no legitimate purpose for the unlooper device purchased by Getchel. (Aff. of Stanley F. McGinnis at ¶ 17.) See also *Time Warner Cable of New York City v. Barbosa*, No. 98 CIV. 3522, 2001 WL 180366, at *3 (S.D.N.Y. Jan.2, 2001) (finding that there is "no legitimate function or purpose ... for a converter-decoder.... Such a device is only capable of enabling its user to receive unauthorized television programming without having to make payment to a cable operator"). The unlooper device, working in conjunction with the satellite dish, satellite receiver, and other equipment that Getchel had in his possession, made it possible for Getchel to intercept and receive DIRECTV's signals without authorization. See *DIRECTV, Inc. v. Karpinsky*, 274 F.Supp.2d 918 (E.D.Mich.2003). Thus, the Court finds that Getchel has violated [§ 605\(a\)](#).

FN3. Subsection (a) of [47 U.S.C. § 605](#) provides in part that "[n]o person not being entitled thereto shall receive ... any interstate or foreign communication by radio and use such communication ... for his own benefit...."

*2 This leaves the issue of damages. DIRECTV has sought statutory damages pursuant to [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)](#) as well as injunctive relief, prejudgment interest, and litigation costs. Under [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)](#), damages are to be computed, "at the election of the aggrieved party," in accordance with any of the following:

- (I) actual damages suffered by the aggrieved party as a result of the violation and any profits of the violator; or
- (II) statutory damages for each violation of subsection (a) in a sum of not less than \$1,000 or more than \$10,000, as the court considers just, and, for each violation of paragraph (4) [FN4] of this subsection, statutory damages in a sum of not less than \$10,000, or more than \$100,000, as the court considers just.

FN4. Paragraph (4) of [47 U.S.C. § 605\(e\)](#) provides criminal penalties for "[a]ny person who manufactures, assembles, modifies, imports, exports, sells, or distributes any electronic, mechanical, or other device or equipment, knowing or having reason to know that the device or equipment is primarily of assistance in the unauthorized decryption of satellite cable programming, or direct-to-home satellite services." It further provides that "the prohibited activity established herein as it applies to each such device shall be deemed a separate violation." *Id.*

DIRECTV has elected to seek statutory damages, as opposed to actual damages, and asks the Court to award \$10,000 for Getchel's violation of subsection (a) and \$100,000 for Getchel's violation of paragraph (4).

The award of damages under § 605(e)(3)(C)(i) is committed to the Court's sound discretion. Cablevision of Southern Connecticut, 141 F.Supp.2d at 286. Courts have used a variety of methods to calculate damages under § 605, including (1) assessing the maximum statutory rate; (2) estimating the amount of services the defendant pirated and applying a multiplier to that figure; (3) adopting the plaintiff's estimate of the amount of services pirated; and (4) where there has been no evidence of the plaintiff's actual usage or commercial advantage, applying the statutory minimum for each pirated device. See CSC Holdings, Inc. v. Ruccolo, 01 Civ. 5162, 2001 WL 1658237, at *2 (S.D.N.Y. Dec.21, 2001) (collecting cases); DIRECTV, Inc. v. Kaas, 294 F.Supp.2d at 1048 (awarding damages of \$1,000 under § 605(e)(3)(C)(i) where the complaint alleged that the defendant had purchased a single pirate access device); DIRECTV, Inc. v. Hamilton, 215 F.R.D. 460, 462 (S.D.N.Y.2003) (awarding damages of \$2,000 under § 605(e)(3)(C)(i) where one defendant had purchased two pirate access devices and declining to award the maximum statutory damages where the plaintiff had failed to proffer any justification for such an award); DIRECTV, Inc. v. Perrier, No. 03-CV-400S, 2004 WL 941641, at *3 (W.D.N.Y. Mar.15, 2004) (awarding \$2,000 in damages under § 605(e)(3)(C)(i) where the complaint alleged that the defendant had purchased two pirate access devices). **"In its broad discretion for determining statutory damages, the district court should consider both the willfulness of the defendant's conduct and the deterrent value of the sanction imposed."** Cable/Home Communications Corp. v. Network Productions, Inc., 902 F.2d 829, 852 (11th Cir.1990).

DIRECTV has alleged and produced evidence that Getchel purchased one pirate access device for use at his home in connection with the satellite equipment he already possessed. There is no claim that he used this commercially or that he purchased the device for resale. Although DIRECTV seeks the maximum statutory penalty of \$10,000 per violation, the Court declines to award the maximum amount in light of the fact that there is no evidence concerning Getchel's commercial use of the device or the amount of his actual usage of the device. Following the lead of several courts cited above, the Court awards \$1,000 for Getchel's violation of § 605(a) by virtue of his purchase and usage of the device.

*3 Additionally, in light of the fact that Getchel has owned this device since March of 2001 and has been able to avoid paying subscription fees to DIRECTV for a period of 38 months, an award of \$1,000 would have no deterrent effect, since this is substantially less than what Getchel would have paid for the satellite programming had he received it in an authorized manner. DIRECTV has produced evidence that during the time Getchel actually subscribed to DIRECTV, the cost of his monthly subscription service was approximately \$100, although this does not include pay-per-view programming, which was additional. Thus, the Court in its discretion awards additional damages of \$3,800, for a total damage award of \$4,800. See Time Warner Cable of New York v. Barbosa, 2001 WL 118608, at * 5 (holding that the statutory goals are served by taking into account the duration of the violation and awarding damages based on the plaintiff's lost revenues during this time period times a multiplier).

DIRECTV also seeks an award of damages of \$100,000 under 47 U.S.C. § 605(e)(3)(C)(i)(II) for Getchel's violation of subparagraph (4) of that section. See Note 4, *supra*. We have two problems with this request. First, DIRECTV did not allege a violation of subparagraph (4) in Count One of its complaint. The only mention of subparagraph (4) is in the prayer for relief. While it could be argued that Getchel's alleged purchasing of the device from a Canadian company constituted "importing" the device under subparagraph (4), it is not clear that Getchel was actually involved in the importing of the device. Plaintiff has produced an invoice for an "MK2 UNLOOPR-SU2," showing the client as Canadian Security and Technology and the contact as Getchel in Waterbury, Connecticut. There is no address for Canadian Security and the attached documentation shows the "Chain/Dealer" as Circuit City Superstore. Thus, it is not clear

whether Getchel purchased this device locally or whether he imported it from Canada. There is no other alleged conduct by Getchel that is encompassed by subparagraph (4). Subparagraph (4) is addressed to persons who "manufacture, assemble, modify, import, export, sell, or distribute" an electronic device knowing or having reason to know that the device is used for the unauthorized decryption of satellite cable programming. It imposes criminal penalties for such conduct, as well as civil penalties, which are ten times the civil penalties for a violation of subsection (a). See [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)\(II\)](#). At least one court has held that a "reasonable reading of this provision demonstrates that [§ 605\(e\)\(4\)](#) targets upstream manufacturers and distributors, not the ultimate consumer of pirating devices, such as Defendant." *DIRECTV, Inc. v. Albright*, No. Civ. A. 03-4603, [2003 WL 22956416](#), at *2 (E.D.Pa. Dec. 9, 2003). Accordingly, we decline to award damages under [47 U.S.C. § 605\(e\)\(3\)\(C\)\(i\)\(II\)](#) for a violation of subparagraph (4).

*4 DIRECTV has also asked for prejudgment interest, but as the court held in [DIRECTV, Inc. v. Albright](#), [2003 WL 22956416](#), at *4, there is no statutory basis in [§ 605](#) for such an award.

The Court further finds that DIRECTV is entitled to a permanent injunction enjoining and restraining Getchel from importing, receiving, possessing, or using a pirate access device, and hereby directs Getchel to surrender all pirate access devices in his possession to DIRECTV. [47 U.S.C. § 605\(e\)\(3\)\(B\)\(i\)](#) (authorizing the Court to grant temporary and final injunctions on such terms as it deems reasonable to prevent or restrain violations of subsection (a)); see [DIRECTV, Inc. v. Kaas](#), [294 F.Supp.2d at 1049](#).

Last, DIRECTV seeks an award of litigation costs in the amount of \$150.00 for filing fees and \$90.00 for service of process fees, for a total of \$240.00. These costs have been documented and are reasonable. [47 U.S.C. § 605\(e\)\(3\)\(B\)\(iii\)](#) (allowing the recovery of full costs to an aggrieved party who prevails); [Community Television Systems, Inc. v. Caruso](#), [284 F.3d 430, 434 n. 5 \(2d Cir. 2004\)](#) (holding that [§ 605](#) requires the court to award reasonable attorney's fees); see [Cablevision of Southern Connecticut](#), [141 F.Supp.2d at 288](#) (awarding fees); [DIRECTV, Inc. v. Perrier](#), [2004 WL 941641](#), at *4 (awarding fees). DIRECTV has provided no other evidence or documentation supporting its request for attorney's fees.

Conclusion

Accordingly, the Court awards damages of \$4,800.00, and litigation costs of \$240.00 in favor of Plaintiff, DIRECTV, Inc., and against Defendant, Brendan Getchel. The Court further permanently enjoins and restrains Defendant Getchel from importing, receiving, possessing, or using a pirate access device, and further directs Defendant Getchel to surrender to Plaintiff DIRECTV all pirate access devices in his possession.

The Clerk shall enter Judgment in accordance with this decision.

SO ORDERED.

D.Conn.,2004.

United States District Court,
S.D. New York.
CABLEVISION SYSTEMS NEW YORK CITY CORPORATION, Plaintiff,
v.
Catherine COLLINS, Defendant.
No. 01 Civ.10954 RO FM.
June 29, 2004.

REPORT AND RECOMMENDATION TO THE HONORABLE RICHARD OWEN [FN]*

FN* This Report and Recommendation was prepared with the assistance of Heather Burke, a first-year student at Fordham Law School.

MAAS, Magistrate J.

I. Introduction

*1 In this action, plaintiff Cablevision Systems New York ("Cablevision") alleges that defendant Catherine Collins ("Collins") violated the Cable Communications Policy Act, as amended, [47 U.S.C. §§ 605\(a\)](#) and [553\(a\)\(1\)](#), by tampering with Cablevision's television system in order to receive its private telecommunications signals unlawfully through use of a "pirate" converter device. After Collins failed to answer the complaint, Your Honor entered a default judgment and referred the matter to me to conduct an inquest regarding Cablevision's damages. (See Docket No. 4).

On August 27, 2002, I directed Cablevision to serve and file an inquest memorandum by September 4, 2002, setting forth its proof of damages, as well as its proposed findings of fact and conclusions of law. The scheduling order gave Collins until September 18, 2002, to respond. Although Cablevision's papers were timely filed, Collins has neither filed any opposition papers, nor had any contact with this Court.

As detailed below, I recommend that Cablevision be awarded a total of \$10,690, consisting of statutory damages in the amount of \$10,000 plus reasonable attorneys' fees and costs in the amount of \$690.

II. Standard of Review

In light of Collins' default, Cablevision's well-pleaded allegations concerning issues other than damages must be accepted as true. See [Cotton v. Slone](#), 4 F.3d 176, 181 (2d Cir.1993); [Greyhound Exhibitgroup, Inc. v. E.L.U.L. Realty Corp.](#), 973 F.2d 155, 158 (2d Cir.1992); [Time Warner Cable of New York City v. Barnes](#), 13 F.Supp.2d 543, 547 (S.D.N.Y.1998); [Cablevision Sys. New York City Corp. v. Lokshin](#), 980 F.Supp. 107, 111 (E.D.N.Y.1997).

Additionally, although a plaintiff seeking to recover damages against a defaulting defendant must prove its claim through the submission of evidence, the Court need not hold a hearing as long as (i) it has determined the proper rule for calculating damages, see [Credit Lyonnais Secs. \(USA\), Inc. v. Alcantara](#), 183 F.3d 151, 155 (2d Cir.1999), and (ii) the plaintiff's evidence establishes, with reasonable certainty, the basis for the damages specified in the default judgment. See [Transatlantic Marine Claims Agency, Inc. v. Ace Shipping Corp.](#), 109 F.3d 105, 111 (2d Cir.1997); [Fustok v. Conticommodity Servs., Inc.](#), 873 F.2d 38, 40 (2d Cir.1989); see also [Tamarin v. Adam Caterers, Inc.](#), 13 F.3d 51, 53-54 (2d Cir.1993) (inquest on damages without hearing improper where based upon "single affidavit only partially based upon real numbers").

III. Factual Findings

On the basis of the complaint and Cablevision's inquest papers, I find as follows: Cablevision is a division of CSC Holdings, Inc., a Delaware corporation, authorized to conduct business in New York, which maintains its principal office at 1111 Stewart Avenue, Bethpage, New York. (Compl.¶ 4).

Collins, at all relevant times, resided at 2440 Boston Road, Apt. 17K, Bronx, New York. (*Id.* ¶ 4; Aff. of Charles Carroll, sworn to on Aug. 28, 2002 ("Carroll Aff."), ¶ 18).

*2 Pursuant to government franchises, Cablevision constructs, operates and maintains cable television systems in parts of Bronx County as well as other counties. (Compl.¶ 6). Cablevision offers its customers various tiers of programming services including "Basic," "Family," and "Optimum" which a subscriber may purchase for a monthly fee. (*Id.* ¶ 7). "Basic" service provides a subscriber with broadcast stations as well as a small number of additional programming services. (Carroll Aff. ¶ 3). "Family" service is a higher level of programming that includes all of Cablevision's services with the exception of "premium" and pay-per-view programming. (*Id.*). "Optimum" service provides all programming available under "Family" service and premium stations. (*Id.*). A subscriber may pay for premium services at a higher monthly rate, or may choose to purchase pay-per-view programming for a pay-per-event fee in addition to the regular monthly fee. (*Id.* ¶¶ 4-5). Premium services include channels such as HBO, Cinemax and Showtime, and range in price from approximately \$1.95 to \$14.95 per month, while packages of premium services range in cost between \$40.75 and \$80.95. (*Id.* ¶ 4). Pay-per-view programming is offered continuously throughout a 24-hour period and consists of individual movies and sporting events. (*Id.* ¶ 5). The pay-per-view items typically cost a subscriber between approximately \$4.50 and \$49.95 per selection. (*Id.*). Over the course of a typical month, the aggregate value of Cablevision's pay-per-view programs, assuming each is viewed once, is hundreds of dollars. (*Id.*).

Satellites transmit the signals for Cablevision's cable television services to Cablevision's reception facilities. (Compl.¶ 10). Those signals then are retransmitted to subscriber's homes and businesses through a network of cable wiring and equipment. (*Id.*).

Each subscriber is entitled to receive only the level of programming and services that the subscriber has specifically selected and purchased. (Carroll Aff. ¶ 7). The signals of that specific programming are encoded or "scrambled" to prevent subscribers from receiving programming for which they have not paid. (*Id.* ¶ 9). Cablevision provides each subscriber with a converter-decoder box which is programmed by Cablevision to decode only the services and programs that the subscriber has purchased. (*Id.* ¶¶ 8, 10). Scrambled programming which has not been purchased remains distorted and unviewable. (*Id.*).

Despite this scrambling technology, a pirate converter-decoder can "descramble" Cablevision's signals so that the programming can be seen without paying first. (Compl.¶ 14). After commencing an action against Mega Electronics ("Mega") for the sale and distribution of such pirate converter-decoder devices, Cablevision obtained records regarding the sale and shipment of Mega's devices to purchasers across the country. (Carroll Aff. ¶¶ 15-17). The records show that, on July 21, 1999, Collins purchased two pirate converter-decoders from Mega. (*Id.* ¶ 19 & Ex. C). The decoders purchased by Collins can be used to defeat the encryption technology used by Cablevision in the Bronx. (*Id.* ¶ 20).

*3 Collins first subscribed to Cablevision's services on January 10, 1997. (*Id.* ¶ 18). In August 1999, one month after purchasing the pirate Mega converters, Collins downgraded her services from "Optimum Gold" to "Family" level. (*Id.* ¶ 18). In March 2001, Collins added HBO, which she later removed in August 2001. Collins upgraded her service to the "Optimum" level in October 2001, but later downgraded to the "Family" level in January 2002. (*Id.*). At the time of the default judgment, Collins subscribed to the "Family" level of service at a cost of \$35 per month. (*Id.*).

For the foregoing services Collins paid Cablevision approximately \$35 per month from August 1999 to March 2001 (approximately 19 months), \$46.95 per month from March 2001 to August 2001 (approximately 5 months), [\[FN1\]](#) \$35 per month from August 2001 to October 2001 (approximately 2 months), \$80 per month from October 2001 to January 2002 (approximately 3 months) [\[FN2\]](#) and \$35 per month from January 2002 to July 2002 (approximately 6 months). Therefore, after her purchase of the pirate boxes through the date of the default judgment, Collins paid Cablevision a total of \$1,419.75 (\$35 x 27 months) + (\$46.95 x 5 months) + (\$80 x 3 months)).

[FN1.](#) Cablevision offered premium services such as HBO at an average price of \$11.95 for each premium channel. (Carroll Aff. ¶ 24). I have accordingly assumed that her monthly bill during this period was \$46.95 (\$35 + \$11.95).

[FN2.](#) Cablevision's papers do not indicate the cost of an "Optimum" level of service. However, the price of "Family" service plus all premium services is approximately \$80 per month. (Carroll Aff. ¶ 24).

IV. Discussion

A. Statutory Damages

Sections 553 and 605 of Title 47 of the United States Code prohibit the unauthorized interception and reception of cable programming services. [FN3] *Barnes*, 13 F.Supp.2d at 547-48 (citing *Int'l Cablevision, Inc. v. Sykes*, 75 F.3d 123, 133 (2d Cir.1996)); *Lokshin*, 980 F.Supp. at 112 ("In contrast to Section 553, which by its statutory language applies only to transmissions via cable systems, Section 605(a) applies to the 'interception of cable-borne, as well as over-the-air, pay television' where cable-borne transmissions originate as satellite transmissions.... Thus, when pay television programming is transmitted over both cable and satellite mediums, both statutes apply." (quoting *Sykes*, 75 F.3d at 130)).

[FN3.](#) Section 553(a)(1) provides, in part, that:

No person shall intercept or receive ... any communications service offered over a cable system unless specifically authorized to do so by a cable operator or as may otherwise specifically authorized by law.

[Section 605\(a\)](#) provides, in part, that:

No person not being authorized by the sender shall intercept any radio communication and divulge or publish the existence, contents, substance, purport, effect or meaning of such intercepted communication to any person.

When a court determines that a defendant has violated both Sections 553 and 605, the aggrieved cable operator may recover damages under only one of those sections. *Sykes*, 75 F.3d at 127; *Barnes*, 13 F.Supp.2d. at 548; **American Cablevision of Queens v. McGinn**, 817 F.Supp. 317, 320 (E.D.N.Y.1993). A plaintiff may, however, elect to recover damages under Section 605 in consideration of its higher damages award. *Sykes*, 75 F.3d at 127; *Barnes*, 13 F.Supp.2d at 548.

In this case, Collins purchased two descrambling devices capable of intercepting and receiving encrypted Cablevision signals. Moreover, it is apparent that she used them since she lowered her level of Cablevision service shortly after the purchase. Cablevision holds proprietary rights in the transmissions that Collins has intercepted and, therefore, is a "person aggrieved" within the meaning of [47 U.S.C. §§ 553\(c\)\(1\)](#) and [605\(e\)\(3\)\(A\)](#).

*4 Cablevision has elected to recover statutory damages under [Section 605](#). (Carroll Aff. ¶ 29). [Section 605\(e\)\(C\)\(3\)\(ii\)](#) provides that the aggrieved party may recover no less than \$1,000 and no more than \$10,000 for each violation "as the court considers just." Not surprisingly, Cablevision seeks to recover the statutory maximum with respect to each Mega device, for a total of \$20,000. (*Id.*).

Because the statute offers little guidance as to how to calculate damages, courts in this circuit have adopted two approaches to assessing damages in cases of unauthorized descrambling of signals by residential subscribers.

One approach has been to assess damages based on the difference between the amount of service for which defendants paid monthly and the amount their unauthorized use

enabled them to receive over the course of their misconduct. See [Lokshin, 980 F.Supp. at 113](#) (finding award of \$125 per month for pilfered pay-per-view services to be reasonable); [McGinn, 817 F.Supp. at 320](#) (imposing statutory damages of \$250 per month per unauthorized decoder); [Time Warner Cable of N.Y. v. Rivera, No. 94 Civ. 2339, 1995 WL 362429, at * 4 \(E.D.N.Y. June 8, 1995\)](#) (Report & Rec. of Mag. J. Gold) (recommending approximately \$1,000 in damages for eight months of pay-per-view programming); [Time Warner Cable of N.Y. v. Fland, No. 97 Civ. 7197, 1999 WL 1489144, at * 4 \(S.D.N.Y. Dec. 3, 1999\)](#) (Report & Rec. of Mag. J. Grubin) (\$71.55 per month in unpaid premium services and \$225 per month in pay-per-view services); [Cablevision Sys. New York City Corp. v. Santiago, No. 02 Civ. 322, 2003 WL 1882254, at *5-*6 \(S.D.N.Y. Mar. 17, 2003\)](#) (Report & Rec. of Mag. J. Freeman) (\$45 per month in unpaid premium services and \$110 per month in pay-per-view services). Other courts have awarded a flat sum based only on the court's determination of the appropriate damages given the circumstances of the case. [Barnes, 13 F.Supp.2d at 548 \(awarding a \\$1,000 flat sum\)](#); [Time Warner Cable of N.Y.C. v. Domsky, No. 96 Civ. 6851, 1997 WL 33374593, at *6-*7 \(S.D.N.Y. Sept. 2, 1997\)](#) (\$1,000 in statutory damages per violation).

Although Collins' failure to submit any evidence makes it impossible to determine the actual period during which Collins was using at least one of her pirate decoders, it is reasonable to assume that she began using them within one month after her purchase when she downgraded her level of cable service. In the absence of any showing to the contrary, it is also reasonable to assume that she continued to use the pirate devices through the date of the default judgment, despite the various changes in her level of service. During that 35- month period the cost of obtaining all of Cablevision's premium services was approximately \$80 per month. (Carroll Aff. ¶ 24). Collins would therefore have likely paid \$2,800 (\$80 x 35 months) for such services had she not used the unauthorized devices. During that period, however, Collins paid Cablevision only \$1,419.75. Thus, if one assumes that Collins used her decoder boxes in this fashion, Cablevision's loss due to her unauthorized access of all its premium programming other than pay-per-view is approximately \$1,380.25 (\$2,800--\$1,419.75).

*5 Estimating the amount of unauthorized pay-per-view programming which Collins received is somewhat more difficult. Cablevision claims that the aggregate value of each individual pay-per-view program offered over a typical month, is hundreds of dollars. (Carroll Aff. ¶ 5). Other courts in similar circumstances have estimated the revenue that a cable operator lost with respect to pay-per-view programming, based upon a reasonable assumption as to the number of high-cost and low-cost events the defendant likely watched each month. See, e.g., [Lokshin, 980 F.Supp. at 113](#) (\$125 in pay-per-view services per month based on an estimate of 16 selections priced at \$5 each and four selections at an average cost of \$11.25); see also [Fland, 1999 WL 1489144, at *4](#) (estimating \$225 in pay-per-view services each month without explaining the breakdown of that estimate). Consistent with these decisions, it is reasonable to assume that Collins would not have purchased each pay-per-view program every time it was shown, but, rather, would have watched at least three minimum-cost events per month plus one maximum-cost event. This would have resulted in an additional loss to Cablevision of \$63.45 per month ((\$.45 x 3) + \$49.95) or \$2,220.75 from August 1999 to July 2002 (\$.63.45 x 35 months).

The overall loss to Cablevision due to Collins' unauthorized access, is therefore approximately \$3,601 (\$1380.25 + \$2220.75). However, as Magistrate Judge Ellis noted in [Domsky, 1997 WL 33374593, at *6](#), awarding damages simply for the value of the services stolen by a defendant "would not be sufficient deterrence" since the penalty would merely be "the amount that should have been paid." Accordingly, it is appropriate to double the monthly damages for each month that Collins was likely using her illegal decoders. [Cablevision Sys. N.Y.C. Corp. v. Sencion, No. 01 Civ. 7069, 2001 WL 1586685, at *3 \(S.D.N.Y. Dec. 12, 2001\)](#) (Stein, J.); [Domsky, 1997 WL 33374593, at *6](#). This would result in an award of statutory damages in the amount of \$7,202.

Finally, in this case, Collins purchased two pirate decoders. Due to her default, it is unclear whether Collins used both decoders at her home or gave the second one to

another Cablevision subscriber. In these circumstances, it is appropriate to increase the statutory damages awarded, but doubling them seems unduly harsh. Instead, I recommend that the amount of statutory damages be increased to \$10,000 (the statutory maximum for one infringing device).

B. Attorneys' Fees

Cablevision also seeks attorneys' fees and costs in the amount of \$1,565. (See Affirm, of William, E. Primavera, Esq., dated Aug. 30, 2002 ("Primavera Affirm."), ¶ 13). As the prevailing aggrieved party, Cablevision is entitled to recover reasonable attorneys' fees and costs. [47 U.S.C. § 605\(e\)\(3\)\(B\)\(iii\)](#). When fixing a reasonable rate for attorneys' fees, courts may consider and apply prevailing market rates "for similar services by lawyers of reasonably comparable skill, experience, and reputation." [Gierlinger v. Gleason](#), 160 F.3d 858, 882 (2d Cir.1998) (quoting [Blum v. Stenson](#), 465 U.S. 886, 895 n. 11 (1984)). Moreover, a court may rely on its own knowledge of private firm hourly rates in estimating reasonable attorneys' fees. [Miele v. New York State Teamsters Cong. Pension & Ret. Fund](#), 831 F.2d 407, 409 (2d Cir.1987).

*6 In the Second Circuit, a party seeking an award of attorneys' fees must support that request with contemporaneous time records that show, "for each attorney, the date, the hours expended, and the nature of the work done." [New York State Ass'n for Retarded Children, Inc. v. Carey](#), 711 F.2d 1136, 1154 (2d Cir.1983). Attorneys' fees applications that do not contain such supporting data "should normally be disallowed." *Id.* at 1154; see also [Kingvision Pay-Per-View v. The Body Shop](#), No. 00 Civ. 1089, 2002 WL 393091, at *5 (S.D.N.Y. Mar. 13, 2002) (Swain, J.) (denying award of attorneys' fees where information regarding how the fees were accumulated was not provided even though requested amount of \$1,000 was reasonable).

In prosecuting this action, Cablevision availed itself of the services of William E. Primavera an associate with Lefkowitz, Louis & Sullivan, LLP. Primavera has submitted an affirmation setting forth (a) his professional experience; (b) the professional experience of the paralegals and legal assistants who worked with him; (c) the prearranged fees that Cablevision actually paid his employer for the work performed; and (d) the billing rate at which Cablevision seeks to be compensated. (Primavera Affirm. ¶¶ 2-13). The billing rates for each of the timekeepers seem more than reasonable. Nevertheless, as I have indicated previously, (see [Cablevision Sys. New York City Corp. v. Diaz](#), No. 01 Civ. 4340, 2002 WL 31045855, at *4 (S.D.N.Y. July 10, 2002)), Cablevision is not entitled to be compensated for its lawyer's flat-rate billing.

In this case, Primavera has provided time sheets prepared by the timekeepers who worked on this matter. (*Id.* Exs. D-H.). Two of the time sheets do not reflect the actual hours expended, (see *id.* Exs. D, H), and must be disallowed. See [Santiago](#), 2003 WL 1882254, at *7 (denying request for attorneys' fees where plaintiff sought legal fees based on flat-rate billing for certain work, but did not provide the number of hours expended).

The time records of the Lefkowitz firm which reflect actual hours expended relate to the work performed by four paralegals, each of whom has an \$85 per hour billing rate. Those records indicate that Susan A. Weindler spent 0.3 hours (see Primavera Affirm. ¶ 10 & Ex. F); Alfonso N. Cava spent 0.4 hours (see *id.* ¶ 11 & Ex. G); Jeanine D. Colavito spent 0.3 hours (see *id.* ¶ 11 & Ex. H); and Janine P. Zabbia spent 5 hours working on this case. (See *id.* ¶ 9 & Ex. E). Accordingly, Cablevision is entitled to recover \$510 for the legal services rendered by the Lefkowitz firm. (\$85 x 6 hours).

C. Costs

Cablevision also seeks to recover \$180 in costs, consisting of \$30 for service of process and the \$150 filing fee. This request is reasonable and should be allowed.

IV. Conclusion

For the reasons set forth above, I recommend that Cablevision be awarded damages in the amount of \$10,690, consisting of \$10,000 in statutory damages, \$510 for attorneys' fees, and \$180 for costs.

V. Notice of Procedure for Filing of Objections to this Report and Recommendation

*7 The parties are hereby directed that if they have any objections to this Report and

Recommendation, they must, within ten (10) days from today, make them in writing, file them with the Clerk of the Court, and send copies to the chambers of the Honorable Richard Owen, United States District Judge, 40 Centre Street, New York, New York 10007, and to the chambers of the undersigned, at the United States Courthouse, 500 Pearl Street, New York, New York 10007, and to any opposing parties. See 28 U.S.C. § 636(b)(1); Fed.R.Civ.P. 6(a), 6(e), 72(b). Any requests for an extension of time for filing objections must be directed to Judge Owen. Any failure to file timely objections will result in a waiver of those objections for purposes of appeal. See Thomas v. Arn, 474 U.S. 140 (1985); Frank v. Johnson, 968 F.2d 298, 300 (2d Cir.1992); 28 U.S.C. § 636(b)(1); Fed.R.Civ.P. 6(a), 6(e), 72(b).

S.D.N.Y., 2004.

Cablevision Systems New York City Corp. v. Collins
